

Sable Fox Forge Blade-Smithing

The four-hour blade-smithing session includes a hands-on intro to blade-smithing. Each participant will forge, shape, grind, quench, temper, and edge their own knife and take home a finished product. There are two basic knife design options for the Intro to Blade-Smithing class. Each participant may choose which style they want to make:

Style 1
Traditional Viking-Style Blacksmith Knife

Style 2
Classic Railroad Spike Knife
